Capability Statement

Georgia Green Energy Services (GGES) is a full-service electrical contractor that manages a wide array of contracting services – from new construction to equipment installation and more. We provide first-class solutions for a broad range of government agencies and commercial businesses. Along with electrical services, GGES provides services that also include: low voltage, facility service management, energy efficiency and analysis, and industrial maintenance. All of our services are provided with green energy in mind and essentially, everything a government entity or corporation needs to become more efficient.
